

REACH Compliance Policy

The Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) is a European Community Regulation related to the safe use and identification of chemicals (Regulation (EC) Number 2011/65/EU).

Reach entered into force on June 1, 2007 with the aim of improving the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances. REACH was aimed at streamlining and improving former European Union chemical legislation by replacing approximately 40 individual pieces of legislation and harmonizing with the remaining legislation. The new legislative framework under REACH shifts responsibility for the control and safety of chemicals from government authorities to industry and created the European Chemicals Agency to act as a central coordinator.

Based on certifications received from our supply sources, Bay Motor Products, Inc. hereby states that we are compliant with REACH. We are reporting banned substance(s), (that we currently use in our products) per the threshold level listed other than exceptions approved by the European Commission.

Bay Motor Products, Inc. is an importer of articles as defined in the Regulation, under Article 7 of REACH. We are compliant in regards to reporting if such articles imported by Bay Motor Products, Inc. into the European Union:

- If substances are present in the articles in quantities totaling over one ton per year
- If substances are intended to be released under normal or reasonably foreseeable conditions of use.

Bay Motor Products, Inc. will continue to monitor those items found in REACH ANNEX XIV and REACH ANNEX XVII and will comply with any applicable requirements as needed. As Substances of Very High Concern (SVHC's) are added to

REACH ANNEX XIV EU 2020/171 of the Regulation, Bay Motor Products, Inc. will assess whether both of the following conditions are met:

1. The substance is present in the articles in quantities over one (1) ton per year
 2. The substances are present in Bay Motor Products, Inc. motors above a concentration level of 0.1% w/w.
- Bay Motor Products, Inc. shall comply with the requirements of Article 7(2) and article 33 of the Regulation, as necessary.

On February 6, 2020 the European Chemical Agency (ECHA) amended ANNEX XIV (EC) No 1907/2006, added eleven new Substances of Very High Concern (SVHC) to the Candidate List. The addition of these (11) new SVHCs bring the total number of entries to 54.
